3. Grant of License

Licensor grants the Licensee a non-exclusive, worldwide, perpetual, royalty-free right to use the Track in one advertising campaign or promotion, including paid online ads and local or regional TV or radio, up to 1,000,000 total impressions or viewers for the whole campaign.

4. Scope of Use

PERMITTED USES

- All uses permitted under the Standard License.
- One advertising campaign or promotion as one End Product (Section 1.6).
- Paid online advertising, including YouTube ads, boosted social media posts and pre-roll ads.
- Local and regional television and radio spots.

EXCLUDED USES

- Campaign reach exceeding 1,000,000 impressions or viewers in total.
- National or international broadcast, cinema, apps and games, which require a higher Tier.

5. Conditions

1. Each license covers one End Product only, including any versions, edits and cut-downs of that End Product. "End Product" is defined in Sections 1.4–1.7 of the Agreement.
2. The Licensee may not resell, share or distribute the Track on a standalone basis; release it as a song or on an album on streaming or download services (such as Spotify or Apple Music); register the Track or the End Product with Content ID or any other audio fingerprinting system; or use the Track to train, fine-tune or test artificial intelligence or machine learning models.
3. If the End Product receives a Content ID claim, email support@pilot2kid.com with this License Number and a link to the End Product; the Licensor will release the claim or allow-list the channel as soon as reasonably possible. A claim on a licensed End Product is not a breach by the Licensee and does not affect the license.
4. The Licensee may transfer this license once, together with the End Product, to the client for whom the End Product was created. Upon transfer, the client becomes the Licensee and the original Licensee may no longer use this license.
5. The Track was created with the assistance of artificial intelligence tools. This license is non-exclusive, and the Track may resemble other AI-generated music.

Issued under the PILOT2KID Music License Agreement v1.0 (pilot2kid.com/license), which forms an integral part of this license.
